

# DesignPro

Office Package Insurance  
Custom Made for Design Professionals

Distinctive. Choice.

# Does your current **Office Insurance** meet your needs and obligations?

Below are some important questions you need to ask yourself:

- Does your office policy meet your lease requirements?
- Does your General Liability policy meet your contractual obligations?
- Are you covered for work at airports?
- Are you covered for work in the USA and other parts of the world?
- Are you insured on a replacement cost basis for blanket limits without coinsurance penalties?
- Are your laptops and field equipment insured away from the office?
- Are your valuable papers, models and electronic documents insured, not just for the material value but for the cost of reproduction?
- What happens if there is a fire at your offices? Are you covered for business interruption or the extra costs to keep your business running?
- Are you currently paying too much for inadequate protection?

JLT Canada has an Office Insurance Program – **Design Pro** – specifically designed for Consultants, with broad cover and competitive rates based upon a very short and simple application. Talk to us or visit our web site at [www.jltcanada.com](http://www.jltcanada.com) for more information.
