

JLT Individual Consultants Program

Distinctive. Choice.

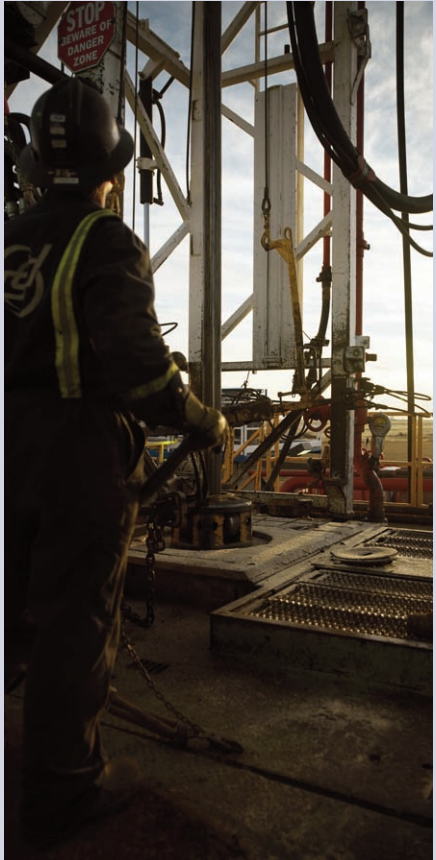

Changing Times

Many Oil and Gas companies now require that consultants carry their own liability insurance. JLT Canada has the solution. A customized liability program with a one-page application. This program offers individuals a quick and painless way to arrange the coverage they need, with a choice of two limits.

Providing an Effective Solution

Designed specifically to cover the needs of Oil and Gas Consultants working in today's Industry. Fast and effective, this program provides the essential coverage that many contractors are required to have. Coverage encompasses both on-shore and off-shore operations.

- With the exception of the U.S.A., the program covers Consultants operating anywhere in the world
- No Absolute Pollution Exclusion
- Includes coverage for short-term lease of autos
- Includes Tenant's Legal Liability
- Underwritten by Lloyd's of London
- Streamlined approval process with Certificates evidencing coverage easily provided
- Consultants choice of either \$2 Million or \$5 Million limit

Company-Wide Solutions

Frequently when a company or organization hires a consultant, the issue of Liability Insurance is the last to be addressed. Finding comprehensive and competitive coverage used to take time. Now we can usually offer a quote within 24 hours. JLT Canada is happy to work with companies to arrange the coverage they require for their contractors and consultants.

Who the Program is Designed For

It is designed to provide Commercial General Liability coverage to independent consultants working within the Oil & Gas Industry. Independent consultants specializing in technology, economics, and management practice for the domestic and international oil, gas, chemical, and related industries.

This program does not include Professional Indemnity, and coverage is not dependent on the consultant carrying separate Professional Indemnity coverage.
